EDUCATION

Bachelor of Computer Engineering, Kharkiv National University of Radioelectronics
Major – Cybersecurity

2017 – 2022
GPA: 3.8/4

SKILLS

Java, C++, Golang, Python, JavaScript, Bash, SQL, Git, Linux, Docker.

EXPERIENCE

Software Engineer

June 2020 – Present

[Bookmap](#) – trading platform

remote / Ukraine

- Developed, released and maintained the [Multibook](#) addon which contributed to a 50% increase in new monthly paid subscriptions and 35% increase in new annual subscriptions during Q2 2021;
- Leded the migration of the Multibook from client-side to server-side which led to a 30-50% decrease in CPU and memory consumption on the user side;
- Improved first-time user experience during new product promotion campaigns by designing and implementing automated configuration module for the main product using Java and NSIS;
- Refactored and extended existed plugin delivery system in order to provide internal and external developers with a centralized way to distribute their addons.

Software Engineering Intern

July 2021 – September 2021

[Bloomberg L.P](#) – the global leader in business and financial data, news and insight

London, UK

- Increased reliability of automated deployment by building a distributed system that integrates post-deployment checks into deployment pipeline using Golang, Python, JavaScript, Kafka;
- Presented this project to an audience of 150 developers in total at 5 internal events in order to encourage usage of the new integration.

Software Engineering Intern

March 2019 – May 2019

[Aimprosoft](#) – outsource enterprise software development

Kharkiv, Ukraine

- Created Admin Dashboard using Java EE Servlets, JSP, JSTL, JDBC, Hibernate, Spring, OVal validator;
- Implemented from scratch some parts of Spring framework in order to apply design patterns and improve knowledge of framework.

ACTIVITIES/LEADERSHIP

Co-founder of university startup “Source”

May 2019 – February 2020

- Created MVP of mobile application, built infrastructure for data gathering and ML integration;
- Presented project, communicated with investors, social media, customers;
- Won 5 local competitions and got to the finals of 2 international funding rounds as a team member.
